Problem Card 1 A Garden and a Playground

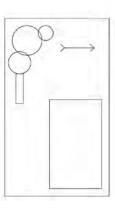

square meters. A gardener has a rectangular garden. She found its area in

What is the perimeter of the garden?

A Garden and a Playground Problem Card 2

perimeter and area. A school has a rectangular playground. A teacher found its

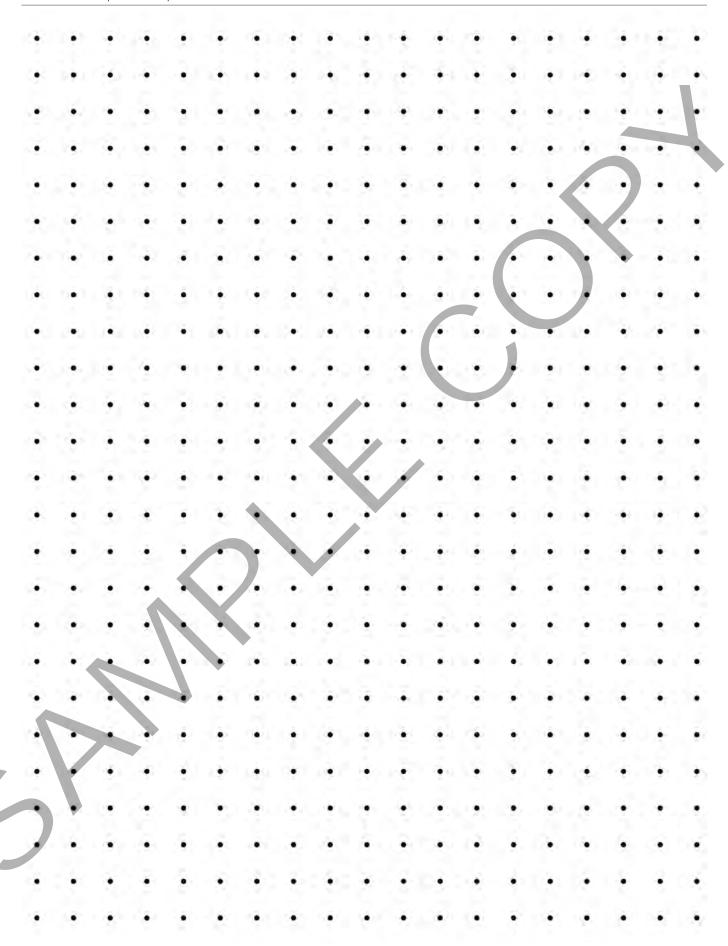

What is the area of the playground?

A Garden and a Playground Data Card 1

- The area of the garden is 48 square meters The longer side is 2 meters longer than the shorter side
- One side of the garden is 8 meters.

Data Card 2 A Garden and a Playground

- The perimeter of the playground is 38 meters.
- The longer side is an even number of meters.
- The shorter side of the playground is 7 meters

lapa and the shirt?

bottom of the shirt.

Ribbon is sewn around the perimeter of the lapa and the

Problem Card 2 Info Gap: The Bundle

How much ribbon is needed altogether to decorate the

Problem Card Info Gap: The Bundle

A bundle of wax print cloth is purchased. Some is used to make a head wrap and some is used to make a lapa.

The rest goes to the tailor to make a shirt

How much wax print cloth goes to the tailor to make a

Data Card 1 Info Gap: The Bundle

- The cloth in the bundle is a rectangle.
- The head wrap is made from a rectangle of cloth The cloth in the bundle is 18 feet by 4 feet.
- that is 2 feet by 6 feet. The lapa is made from a rectangle of cloth that is 7

feet by 4 feet.

- The piece of cloth used for the lapa is a rectangle.
- feet. The piece of cloth used for the lapa is 7 feet by 4
- The bottom of the shirt is 3 feet long

Directions:

- Split the deck. Place the cards facedown in 2 stacks.
- Each partner flips over a card.
- · Compare the values. The partner with the greater value keeps both cards.
- If the values are the same, each partner turns over 1 more card. The partner with the greater value keeps all 4 cards.
- Play until you run out of cards. The partner with more cards at the end of the game wins.

Record any sets of cards that are challenging to compare.

Directions:

- If the values are the same, each partner turns over 1 more card. The partner with the greater value keeps all 4 cards.
- Play until you run out of cards. The partner with more cards at the end of the game wins.

Record any sets of cards that are challenging to compare.

Directions:

- Remove the cards that show 10 and set them aside.
- · Each partner:
 - Take 4 cards.
 - o Choose 2-3 cards to multiply.
 - o Write an equation to show the product of the numbers you chose.
 - Your score for each round is the difference between your product and 100.
- Take new cards so that you have 4 cards to start the next round.
- At the end of the game, add your score for each round. The partner with the lower score wins.

Directions:

- Both partners choose different colors to write with.
- · On your turn:
 - o Spin each spinner.
 - o Shade in a rectangular area to represent the product of the 2 numbers.
- If your product won't fit on the gameboard, roll and spin again.
- Take turns until the grid can't be filled with any more rectangles.
- Each partner finds their total area on the grid. The partner with the greater area wins.
